

City Leaders,

As the voice of the statewide business community, the Salt Lake Chamber thanks you for voting in favor of passing a resolution in support of Salt Lake County enacting the local option sales tax for transportation. This local option sales tax is a conservative investment that will both maintain current infrastructure and address local transit and transportation needs.

We understand the multi-faceted nature of this decision, and appreciate your ability to see the long term impacts of this investment for the betterment of your city and the region as a whole. As our population continues to grow and costs compound, funding for local, multi-modal transportation infrastructure is more important than ever. Your vote for maintaining and developing local transportation projects directly correlates with a business-friendly climate, economic development success and overall high quality of life for city residents now and for years to come.

Thank you again for your commitment to keep Utah moving.

Sincerely,

Derek Miller
