

Why I Like My Community

Have you ever been to Manti? Well, close your eyes and picture an amazing place where it is more like a family than a town.

I love Manti so much. One of the reasons why is because of the geography it is awesome. One of my favorite things about Manti is when I wake up look out the window and see the beautiful mountains all around me. It makes me feel safe and protected. I also love the Manti creek it goes all the way through town. I like when you are going on a walk then see the Manti creek and really feel all the amazing things that are happening around you.

Another reason I love Manti is because of the people. The people are so kind and loving. Whenever someone gets hurt or is having a rough time the people are there to help you through it. The people are not grouchy, dishonest or unhelpful. Everybody in Manti is Happy, friendly, kind and honest.

I also love Manti because of our activities! One activity that we have is the Manti pageant. The pageant is so peaceful and fun. Everybody is happy and are making amazing memories. I love to go to the stands at the pageant. One stand that I like is the chocolate strawberry stand it is awesome! The food is so good at the pageant. One thing I love is the pizza it is delicious. Another activity that we have is the county fair! The fair is very fun and exciting. The fair also has many fun things to do. One activity at the fair is the really fun games to play. Another fun thing to do at the fair is to see all the awesome animals. One of my favorite activities is the sports. I love to play soccer and softball. Our town is getting a new baseball and softball diamond, it is going to be awesome!

In conclusion, I hope you will come to Manti and enjoy everything here. If you come to Manti, I know you will love it.
